Color coded legend: **onlineDescription** - red color: what is agreed to be changed  
**externalDescription** – yellow color: what is the precise change

## Change: 1

Affected documents: **TG**

Themes: **Land Use**

**Subject:** Wrong name for section 2.6

**Description:** Section 2.6 is called **2.6 XML Extensible Markup Language How the Technical Guidelines map to the Implementing Rules** instead of **2.6 How the Technical Guidelines map to the Implementing Rules.**

**Corrigendum:** **Correct the name of section 2.6 as proposed under Description and update ToC.**

## Change: 2

Affected documents: **TG**

Themes: **Land Use**

**Subject:** Paragraph between A.1.6 and A.1.7 seems to be out of context

**Description:** In version 3.0 of the TG, the following text got added between A.1.6 and A.1.7: **This test should include (2) The spatial object type CoverageByDomainAndRange must only be of subtypes of GridCoverage.** It seems to be redundant with the following sentence in A.1.6: *Examine if the spatial object type CoverageByDomainAndRange is provided and if is a subtype of GridCoverage.*

**Corrigendum:** Remove the text **This test should include (2) The spatial object type CoverageByDomainAndRange must only be of subtypes of GridCoverage**
